Art Unit: 2616

## **Election/Restriction**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-19, 23-24, drawn to method for providing a mobile device with

content from a server, classified in class 370, subclass 328.

II. Claims 20-22, drawn to a mobile device, classified in class 455, subclass

407.

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that

they are not disclosed as capable of use together and they are different modes of

operation, different functions, or different effects (MPEP 806.04, MPEP 808.01). In the

instant case the different inventions have different modes of operation, different

function, and they have different effects.

3. Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art as shown by their different classification because

of their recognized divergent subject matter, and the search required for each Group I

and II is not required for other Group, restriction for examination purpose as indicated is

proper.
